Subject: Division Directive - Reclaim or Submit Notice of Intention, Staker Parson Companies, Heber Binggeli Quarry, M/051/0015, Wasatch County, Utah

Dear Mr. Dalley:

The Division of Oil, Gas and Mining (Division) has received an estimated reclamation surety for the mine but has not received or approved a Notice of Intention to Commence Large Mining Operations. The Division directs the Operator to notify the Division one of the following options:

1. By November 2, 2015, complete reclamation of the area where mining occurred in bedrock.
2. By January 15, 2016, submit a Notice of Intention.

The Heber Binggeli quarry is dominantly a sand and gravel operation with a small portion of the area considered a "mining operation" as defined by the Utah Mined Land Reclamation Act. The Division will release the portion of estimated reclamation bond associated with the sand and gravel after the portion of the mine has been reclaimed which is in bedrock material. After the vegetation is re-established the remaining reclamation bond will be released. Otherwise, the Division needs a complete Notice of Intention.

Please notify the Division no later than September 19, 2015, which option you will pursue. Thank you for your cooperation. Please call Leslie Heppler at 801-538-5257 or me at 801-538-5261 if you have any questions about these requirements.

Sincerely,

Paul B. Baker
Minerals Program Manager
